

## Climate Bonds Disclaimer Applicable to Certification:

**Contact Energy Limited** (the Issuer)

**Green Borrowing Programme** (the Programme)

The certification of the Programme by the Climate Bonds Initiative is based solely on the Climate Bond Standard and does not, and is not intended to, make any representation or give any assurance with respect to any other matter relating to the Programme, any Green Debt Instrument or Green Asset (as those terms are defined in the Issuer's Green Borrowing Programme Framework), including but not limited to any Information Memorandum, any transaction documents, the Issuer or the management of the Issuer.

The certification of the Programme by the Climate Bonds Initiative was addressed solely to the board of directors of the Issuer and is not a recommendation to any person to purchase, lend to, hold or sell the Green Debt Instruments in the Programme and such certification does not address the market price or suitability of the Programme for a particular investor or lender. The certification also does not address the merits of the decision by the Issuer or any third party to participate in any Green Debt Instrument or Green Asset and does not express and should not be deemed to be an expression of an opinion as to the Issuer or any aspect of any Green Debt Instrument or Green Asset (including but not limited to the financial viability of any Green Debt Instrument or Green Asset) other than with respect to conformance with the Climate Bond Standard.

In issuing or monitoring, as applicable, the certification, the Climate Bonds Initiative has assumed and relied upon and will assume and rely upon the accuracy and completeness in all material respects of the information supplied or otherwise made available to the Climate Bonds Initiative.

The Climate Bonds Initiative does not assume or accept any responsibility to any person for independently verifying (and it has not verified) such information or to undertake (and it has not undertaken) any independent evaluation of any Green Debt Instrument, Green Asset or the Issuer. In addition, the Climate Bonds Initiative does not assume any obligation to conduct (and it has not conducted) any physical inspection of any Green Debt Instrument or Green Asset. The certification may only be used with the Programme and may not be used for any other purpose without the Climate Bonds Initiative's prior written consent.

The certification does not and is not in any way intended to address the likelihood of timely payment of interest when due on Green Debt Instruments in the Programme and/or the payment of principal at maturity or any other date.

The certification may be withdrawn at any time in the Climate Bond Initiative's sole and absolute discretion and there can be no assurance that such certification will not be withdrawn.
