

1. Connect to the modem by Wire or Wireless
2. Open a browser (Chrome, Firefox, etc.) and enter **192.168.20.1** in the address bar
 - If this was supplied by another company, you may need to use **192.168.1.1**
3. Enter **admin** as both the Username and Password and click **Sign In**
 - If provided by Trustpower, the password will be **Trustpower**
4. Using the left-hand side panel, click **Basic Setup**

The screenshot shows the NetCommWireless NF18ACV web interface. The left sidebar contains a menu with 'Basic Setup' highlighted in red. The main content area displays 'Device Info' with a table of system details and a 'WAN connection' status table below it.
